(2.50 for non-residents)

D8 List any other application requirements specific to transfer applicants:

D8 If minimum admission requirements are not met, additional factors may be considered such as whether holding an Associate of Arts Oregon Transfer (AAOT) degree or Associate of Science Oregon Transfer degree in business from an Oregon community college, which completed courses fulfill university graduation requirements, GPA, and grade trends in academic history. Academic potential and special talents are also considered. Please see <http://admissions.uoregon.edu/apply/transfer.htm> for additional information.

D9 List application priority, closing, notification, and candidate reply dates for transfer students. If applications are reviewed on a continuous or rolling basis, place a check mark in the "Rolling admission" column.

D11 Completion of one college-level composition course and one college-level mathematics course with a minimum prerequisite of intermediate algebra with a grade of C- or better, P (pass), or S (satisfactory), and verified second-language proficiency (minimum two years of high school or two terms of college courses in the same language or passing score on proficiency test). Applicants in professional schools may be expected to show proficiency beyond minimum requirements. Architecture or interior architecture applicants must submit SAT Reasoning Test or ACT scores regardless of class level.

-----	---	-----------------------

D16	Minimum number of credits that transfers must complete at your institution to earn a bachelor's degree:	45.00
-----	---	--------------

D17 Describe other transfer credit policies:

D17 College-level academic course work from regionally accredited two- or four-year colleges and universities is accepted. Credits from colleges outside the United States are evaluated individually. Official transcripts are required. There is no maximum number of credits that can be transferred from a regionally accredited four-year college or university. Up to 124 credits from an accredited community or junior college can be applied to a bachelor's degree. They are transferred as lower-division credits and cannot be used to satisfy the UO upper-division graduation requirement. Up to 12 credits of vocational-technical, physical education, and music performance, and up to 48 credits in professional courses such as veterinary medicine or nursing can be transferred. One semester course is generally equivalent to one quarter course. Occasionally, two semester courses taken in sequence will be equal to three courses in the quarter system. All attempted credits for which a grade was earned are used to determine transfer GPA. Incompletes and withdrawals are not considered in the transfer GPA.

G1 Undergraduate full-time tuition, required fees, room and board List the typical tuition, required fees, and room and board for a full-time undergraduate student for the FULL 2008-2009 academic year (30 semester or 45 quarter hours for institutions that derive annual tuition by multiplying credit hour cost by number of credits). A full academic year refers to the period of time generally extending from September to June; usually equated to two semesters, two trimesters, three quarters, or the period covered by a four-one-four plan. Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan. Required fees include only charges that all full-time students must pay that are not included in tuition (e.g., registration, health, or activity fees.) Do not include optional fees (e.g., parking, laboratory use).

I. INSTRUCTIONAL FACULTY AND CLASS SIZE

- I1 Please report the number of instructional faculty members in each category for Fall 2007. Include faculty who were on your institution's payroll on the census date your institution uses for IPEDS/AAUP.**
- I1** The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

		Full-time	Part-time
I1	a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows	Exclude	Include only if teaching one or more non-clinical credit courses
I1	b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include if teaching one or more non-clinical credit courses
I1	c) other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status	Exclude	Include
I1	d) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
I1	e) faculty on sabbatical or leave with pay	Include	Exclude

I1	g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: faculty employed on a full-time basis for instruction (including those with released time for research)

Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty: includes faculty who designate themselves as black, non-Hispanic; American Indian or Alaska Native; Asian or Pacific Islander; or Hispanic.

Doctorate: includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Doctor of Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, or radiology.

First-professional: includes the fields of dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), law (JD) and theological professions (MDiv, MHL).

Terminal degree: the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts).

I1	j) Total number in stand-alone graduate/ professional programs in which faculty teach virtually only graduate-level students			

I. INSTRUCTIONAL FACULTY AND CLASS SIZE

I2 Student to Faculty Ratio

I2 Report the Fall 2007 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate-level students. Do not count undergraduate or graduate student teaching assistants as faculty.

I2 Fall 2007 Student to Faculty ratio	20	to	1	(based on	18,768	FTE students
				and	932	FTE faculty).

I3 Undergraduate Class Size

I3 In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2007 term.

I3 **Class Sections:** A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

I3 **Class Subsections:** A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

I3 Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2007. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

J. DEGREES CONFERRED

J1 Degrees conferred between July 1, 2006 and June 30, 2007

J1 For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.
