

WHAT INFORMATION IS AVAILABLE ON THE 2014-15 UO with **ALL AAU PUBLIC PEERS** COMPARISON OF FACULTY SALARIES?

Data are collected according to criteria defined by the AAU Data Exchange (AAUDE). See footnotes on reports for more detail.

Average salary by rank compared to UO or **ALL AAU Public Peers** overall average salary. Indication of relative standing in relationship to all UO or **ALL AAU Public Peers** faculty included in the study.

Average salary by rank compared to UO or **ALL AAU Public Peers** average salary for that rank. Indication of relative standing in relationship to all UO or **ALL AAU Public Peers** faculty in the same rank. Calculated only on reports containing rank information. ^New on 2010-11 reports.

-------------	------	-------------------	-------------------------	--------------------------	-------------------------------------	---	---	--	--	--	--	----------------------	--	----------------------------	-----------------	--	-----------------------------------

UO Average Salary. Based on salary data from October 2014.

Average salary for **ALL AAU Public Peers**. See Appendix II for list of institutions.

Difference between ranks as percent of UO or **ALL AAU Public Peers** overall salary [example: (UO Prof Avg-UO Assoc Avg)/UO Overall Avg]. Indicator of relative salary compression. Calculated only on reports containing rank information.

Weighted Averages: The departmental, division, school/college, and overall averages on these reports are weighted by the FTE distribution within each department, division, school/college, or the UO as a whole. This is also true for the respective AAU peer group being compared (**ALL AAU Public Peers**). However, the FTE distributions for the UO and the respective AAU peer group within a comparison group (department, division, school/college, overall) are often not the same, often resulting in an overall UO average that is a lower percentage of the overall AAU average than any of the contributing averages by rank (see the Department of Art as an example). This is because the UO's distribution of ranks is different than the given peer group. The "All Ranks Weighted" line is intended to provide analogous data for the UO and the respective AAU peer group by making both groups "look" the same. The FTE distributions within a department, division, school/college, or the institution as a whole were weighted at 35% Professor, 30% Associate Professor, and 30% Assistant Professor for both the UO and each respective AAU Peer group. This weighting scheme is a standard scheme based on a "traditional" faculty distribution.

Duplicating Average Salary Calculations:

- Unweighted average salaries:** Multiply the reported average salary for the tenure/tenure track ranks within a comparison group (department, division, school/college, or overall) by their corresponding FTEs, sum these amounts, and divide by the total FTE.

Example:
$$\frac{(\text{Full Professor Average Salary} * \text{Full Professor FTE}) + (\text{Associate Professor Average Salary} * \text{Associate Professor FTE}) + (\text{Assistant Professor Average Salary} * \text{Assistant Professor FTE})}{(\text{Full Professor FTE} + \text{Associate Professor FTE} + \text{Assistant Professor FTE})}$$

- Weighted average salaries:** Multiply the reported average salary for the tenure/tenure track ranks within a comparison group (department, division, school/college, or overall) by the corresponding "traditional" weights of .35 for full professors and .30 for associate and assistant professors, sum these amounts, and divide by the total of the "traditional" weights.

Example:
$$\frac{(\text{Full Professor Average Salary} * .35) + (\text{Associate Professor Average Salary} * .30) + (\text{Assistant Professor Average Salary} * .30)}{\text{Sum of "traditional" weights for comparison group (.95 if averages are reported for all tenured/tenure-track ranks; if a rank has zero FTE, reduce the .95 by the rank's respective weight amount)}}$$

NOTES:

1. Definitions of faculty included in AAU salary data:
 - a. Regular, full-time (.50 FTE or greater) tenure and tenure track faculty in instructional departments.
 - b. Regular, full-time tenure and tenure track faculty on sabbatical or partial leave without pay in 2014-15.
 - c. Faculty with research contracts were not included.
 - d. Only employees with 9-month appointments were included. Employees in 12-month administrative positions were not included.
 - e. Visitors were included only if their salaries are representative of salaries for that department. (The UO data contain no visitors.)
 - f. Faculty with post-retirement appointments were not included.
 - g. Instructor data include only tenured or tenure-track faculty.
2. Endowed Chairs, Department Head stipends, Teaching Awards, and Faculty Excellence Awards were included in UO reported salaries. Inclusion of regularly occurring stipends in faculty salaries varies among AAU peers depending on their data system capabilities.
3. Full-time equivalent salaries were used for all calculations.
4. Average and weighted average salaries were rounded to the nearest 100 after calculations. Percentages were calculated using the rounded amounts.
5. FTEs were rounded to the nearest full number prior to average salary calculations. If a peer institution reported less than .50 FTE in a discipline, data for that instance were excluded. The UO data contain no FTEs less than .50 (see note 1a).
6. Only UO departments reported to the AAU Data Exchange were included.
7. AAU data were selected based on similarity to disciplines at UO, not exact CIP code match. See Appendix I for details.
8. Because of selection criteria, averages in this comparison may differ from averages in other salary comparison reports.
9. See Appendix II for institutions included in this analysis.
